LEGISLATIVE COUNSEL'S DIGEST

AB 1802, as amended, Committee on Budget. ~~Budget Act of 2006.~~ *Education: programs: finance.*

*(1) Existing law requires a revenue limit to be calculated for each county superintendent of schools, and requires the revenue limit to be adjusted for various factors and to be reduced, as specified. Existing*

*law further reduces the revenue limit for the 2005–06 and 2006–07 fiscal years by a deficit factor of 0.898%.*

*This bill would delete the reduction of the revenue limit for the 2006–07 fiscal year.*

*(2) Existing law designates a source of funds and requires the State Allocation Board to expend those funds, up to a specified maximum amount, for the acquisition of portable school and classroom buildings.*

*This bill would authorize the board to allocate any amount of those funds that is in excess of the amounts needed for the administration of those provisions to any of several specified state funds related to school facilities.*

*(3) Existing law provides specified funding for eligible pupils, as defined, who are required to pass the high school exit examination, to be used for intensive instruction and services for those pupils. Existing law provides that, for the 2005–06 fiscal year, an eligible pupil does not include a pupil who receives services related to passage of that examination pursuant to a specified statute. Existing law requires the Superintendent of Public Instruction to rank schools on the basis of the percentage of eligible pupils and to apportion \$600 per eligible pupil to school districts on behalf of those ranked schools until the funds are exhausted.*

*This bill would, instead, require the Superintendent to determine and apportion to each school district a per pupil rate of funding for pupils enrolled in grade 12, as specified. The bill would require the Superintendent, if the funds are not exhausted after the apportionment for pupils in grade 12, to determine and apportion to each school district a per pupil rate of funding for pupils enrolled in grade 11, as specified. The bill would provide that the per pupil rate for either of grades 11 or 12 may not exceed \$500. The bill would provide that the amount per eligible pupil be increased annually by the percentage determined pursuant to a specified provision. The bill would delete the provision regarding an eligible pupil not including a pupil who receives specified services.*

*(4) Existing law requires, for the 1990–91 fiscal year and each fiscal year thereafter, that moneys to be applied by the state for the support of school districts and community college districts be distributed in accordance with certain calculations governing the proration of those moneys among the 3 segments of public education.*

*Existing law makes this provision inapplicable to the fiscal years between the 1992–93 and 2005–06 fiscal years, inclusive.*

*This bill would, in addition, make this provision inapplicable to the 2006–07 fiscal year.*

*(5) Existing law requires the county superintendent of schools to determine a revenue limit for each school district in the county. Existing law requires the base revenue limit for a fiscal year to be determined by adding to the base revenue limit for the prior fiscal year certain amounts.*

*This bill would require a specified equalization adjustment to be added for the 2006–07 fiscal year.*

*(6) Existing law requires a revenue limit to be calculated for each school district and each county superintendent of schools and requires the amount of the revenue limit to be adjusted for various factors.*

*This bill would, for the 2006–07 fiscal year, require the Superintendent to compute an equalization adjustment for each school district so that the prior year base revenue limit per unit of average daily attendance of a school district is not less than the prior year base revenue limit per unit of average daily attendance above which fall not more than 10% of the total statewide units of average daily attendance for the appropriate size and type of school district.*

*The bill would appropriate \$200,000,000 from the General Fund to the Superintendent for the 2006–07 fiscal year for the purposes of this equalization, to be allocated to school districts on a prorated basis. The bill would provide that for the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, these amounts are General Fund revenues appropriated for school districts for the 2006–07 fiscal year.*

*(7) Existing law requires, for the 2005–06 and 2006–07 fiscal years, the revenue limit for each school district to be reduced by a deficit factor of 0.892%. Existing law requires the revenue limit computation for the 2007–08 fiscal year to be made as if the revenue limits for the 2003–04, 2004–05, 2005–06, and 2006–07 fiscal years had been determined without being reduced.*

*This bill would delete the requirement to reduce the revenue limit for a school district for the 2006–07 fiscal years by a 0.892% deficit factor, and would require the revenue limit computation for the 2006–07 fiscal year to be made as if the revenue limits for the 2003–04, 2004–05, and 2005–06 fiscal years had been determined without being reduced.*

(8) Existing law authorizes the Committee of Credentials to conduct an initial review, as provided, regarding an allegation of misconduct of an applicant for, or holder of, a credential. Existing law requires a formal review to be held no later than 6 months after the commencement of the initial review and requires the committee to make its recommendation in writing and to deliver a copy of the recommendation to the credential holder or applicant personally or sent to him or her by mail within 14 days after the formal review.

This bill would instead require that the mailing of a copy of the recommendation to the credential holder or applicant, if applicable, be done by certified mail, as specified.

(9) Existing law requires an applicant, as defined, seeking a credential, who is subject to investigation by the Committee of Credentials, to receive notice of the investigation and an opportunity to respond to the allegations in writing. Existing law requires a summary of the alleged misconduct and any response from the applicant, as defined, to be presented to the Committee of Credentials. Existing law requires the Committee of Credentials to grant or recommend denial of the application based on the information discovered during the investigation and the response of the applicant, if any. Existing law authorizes the applicant to appeal the recommendation of the committee to deny the application.

This bill would repeal those provisions.

(10) Existing law authorizes the county superintendent of schools of each county, with the consent of the State Board of Education, to establish and maintain, or with one or more counties to establish and maintain, a regional occupational center or regional occupational program to provide education and training in career technical courses.

This bill would establish the Supplemental School Counseling Program and require the governing board of a school district that maintains any of grades 7 to 12, inclusive, as a condition of receiving funds appropriated for purposes of that program, to adopt a counseling program at a public meeting that includes, among other things, a provision for a counselor to meet with each pupil, as specified, to explain the academic and deportment records of the pupil, his or her educational options, the coursework and academic progress needed for satisfactory completion of middle or high school, and the availability of career guidance activities. The bill would provide that the educational options explained at the meeting may

*include vocational programs, including regional occupational centers and programs. The bill would require that a school district that adopts a program pursuant to that authority to assign first priority for counseling services to pupils who have failed the high school exit examination, are at risk of failing the examination, or are not earning credits at a rate that will enable them to graduate from high school with their class. The bill would require that funds appropriated in the annual Budget Act for purposes of that program be allocated to school districts according to specified criteria.*

*(11) Existing law increases the reimbursement a school receives for free and reduced price meals sold or served to pupils in elementary or middle schools to \$0.23, contingent upon the appropriation of moneys on or before January 1, 2004, for that purpose. Existing law provides that each elementary and middle school shall receive a reimbursement of \$0.10 for meals sold at full price.*

*This bill would, instead, increase the reimbursement for free and reduced price meals to \$0.21 and would delete the provision that makes the increase contingent upon the appropriation of moneys for that purpose. The bill would delete the provision regarding reimbursement for meals sold at full price.*

*(12) Existing law authorizes the allocation of economic impact aid funding to support educationally disadvantaged youth programs and bilingual education. Existing law provides that those provisions become inoperative on June 30, 1987.*

*This bill would repeal and replace the existing provisions regarding the calculation and allocation of economic impact aid to require the Superintendent to determine an economic impact aid-eligible pupil count and calculate an amount of economic impact aid for each school district for the 2006–07 fiscal year and each fiscal year thereafter, as specified. The bill would delete that inoperative date with regard to those provisions. The bill would, in addition to the calculation and allocation of economic impact aid, require the Superintendent to calculate and allocate a supplemental adjustment for the 2006–07 fiscal year and to add to the economic impact aid per pupil amount for the 2007–08 fiscal year, as specified.*

*(13) Existing law provides for the calculation and allocation of additional funds to supplement the economic impact aid for a limited number of school districts with high concentrations of limited- and non-English-speaking pupils and pupils in poverty to ensure funding for appropriate educational services.*

*This bill would repeal those provisions.*

*(14) Existing law adjusts funding for individuals with exceptional needs based on an incidence multiplier, as defined, for each special education local plan area.*

*This bill would continue the current special education incidence factor formula through the 2006–07 fiscal year.*

*(15) Existing law requires the State Department of Education to administer an extraordinary cost pool to protect special education local plan areas from the extraordinary costs associated with single placements in nonpublic, nonsectarian schools, as specified.*

*This bill would recast that provision and authorize special education local plan areas to submit claims for the costs of special education and related services for pupils who reside in licensed children's institutions.*

*(16) Existing law requires the State Department of Education and the California State University to enter into an interagency agreement under which the Center for the Study of Correctional Education, would provide technical assistance to the department regarding compliance with state and federal laws and regulations regarding special education at the Department of the Youth Authority. Existing law requires the department, by December 1, 2006, to submit a report to the Legislature on the usefulness of the services received from the center pursuant to the interagency agreement. Existing law provides that these provisions become inoperative on January 1, 2007, and repeals them on that date.*

*This bill would extend those inoperative and repeal dates to July 1, 2007.*

*(17) Existing law establishes the State Nursing Assumption Program of Loans for Education (SNAPLE), administered by the Student Aid Commission, under which any person enrolled in an institution of postsecondary education and participating in that loan assumption program is eligible to receive a conditional warrant for loan assumption, to be redeemed upon becoming employed as a full-time nursing faculty member at a California college or university.*

*The existing SNAPLE act establishes, among other things, eligibility requirements, including the receipt of a graduate degree from an accredited, participating institution before loan assumption payments may be made, limits each participant in the program to one loan assumption agreement, and provides for a progressive assumption of the amount of the loan over 3 consecutive years of teaching, up to a*

*total loan assumption of \$25,000. The existing SNAPLE act requires the commission to report annually to the Legislature, and states the intent of the Legislature that, commencing with the 2006–07 fiscal year, funding necessary for the administration of the program shall be included within the annual budget of the commission.*

*This bill would amend the SNAPLE act to authorize the award of loan assumption agreements under the program to undergraduate students and to authorize the making of loan assumption payments to applicants who have taught on a part-time basis for the equivalent of 3 full-time academic years. The bill would authorize the extension of the term of a loan assumption agreement if a natural disaster prevents a program participant from completing one of the years of required teaching service.*

*(18) Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education. Existing law establishes the Public Interest Attorney Loan Repayment Program, under the administration of the commission, as a student loan repayment program for licensed attorneys who practice or agree to practice in public interest areas of the law, as defined, and who meet other designated criteria. Under the program, the Public Interest Attorney Loan Repayment Endowment Account, consisting of funds appropriated by the Legislature for the program and private contributions to the program, is established in the State Treasury. Existing law authorizes the Treasurer to invest, reinvest, manage, contract, sell, or exchange money in the account, as specified.*

*This bill would require the commission to submit an annual written report to the Legislature, including specified data, regarding the program. The bill would delete the provisions establishing the Public Interest Attorney Loan Repayment Endowment Account and authorizing the Treasurer to invest, reinvest, manage, contract, sell, or exchange money in the account. The bill would make various nonsubstantive technical and conforming revisions in provisions relating to the program.*

*(19) Existing law requires the governing board of each community college district to charge each student a fee of \$26 per unit per semester, effective with the fall term of the 2004–05 academic year.*

*This bill would reduce that fee to \$20 per unit per semester, effective with the spring term of the 2006–07 academic year.*

(20) Existing law establishes the California State University under the administration of the Trustees of the California State University. Existing law requires the chief fiscal officer of the university to deposit and maintain in trust accounts specified moneys that the university receives.

This bill would require the chief fiscal officer of the university to deposit and maintain in these trust accounts moneys collected, pursuant to a provision of existing law that authorizes the trustees to require persons to pay fees, rents, deposits, and charges for services, facilities, or materials provided by the trustees to these persons, as a higher education fee or other income from students of any campus of the university, or from other persons. The bill would grant the Controller the authority to audit the expenditure of those fees and income.

(21) This bill would appropriate \$388,283,000 from the General Fund to the State Department of Education for expenditure during the 2007–08 fiscal year according to a specified schedule. The bill would provide that for purposes of satisfying the minimum annual funding obligation for school districts and community college districts required under the California Constitution, those funds are General Fund revenues appropriated for school districts.

(22) This bill would appropriate \$200,000,000 to the Board of Governors of the California Community Colleges for apportionments to community college districts, for expenditure during the 2007–08 fiscal year, to be expended in accordance with the requirements specified in a schedule of a local assistance appropriation for community colleges in a prescribed item of the Budget Act of 2006. The bill would provide that the amount of this appropriation would be applied, as specified, for the 2007–08 fiscal year, for the purposes of the minimum funding requirement for school districts and community college districts in Section 8 of Article XVI of the California Constitution.

(23) This bill would make specified funds appropriated pursuant to the Budget Act of 2006 available for liquidation through July 31, 2009. The bill would revert the funds unexpended after that date to the Proposition 98 Reversion Account.

(24) Existing law, commencing with the 2006–07 fiscal year, annually appropriates \$150,000,000 from the General Fund to the Controller for allocation to school districts and community college districts for the purpose of discharging in full the outstanding balance

of the state minimum funding obligation to school districts and community college districts, as provided.

This bill, notwithstanding that provision, would provide that \$16,811,000 of the funds appropriated in a specified statute and \$133,189,000 appropriated in this bill are in lieu of the \$150,000,000 that would have otherwise been appropriated for the 2006–07 fiscal year and that specified amounts appropriated in this bill are in lieu of the \$150,000,000 that would have otherwise been appropriated for the 2007–08 fiscal year.

(25) This bill would provide that the cost-of-living adjustment for specified items of the Budget Act of 2006 is 5.92%, and that all funds appropriated in those items are in lieu of the amounts that would otherwise be appropriated pursuant to any other law.

(26) This bill would appropriate \$350,000,000 from the General Fund to the Superintendent for the 2006–07 fiscal year for purposes of a specified provision to be allocated to school districts on a prorated basis. The bill would provide that for purposes of satisfying the minimum annual funding obligation for school districts required under the California Constitution, those funds are General Fund revenues appropriated for school districts for the 2006–07 fiscal year.

(27) This bill would appropriate \$2,305,695,000 from the General Fund for the 2005–06 fiscal year according to a specified schedule. The bill would provide that for purposes of satisfying the minimum annual funding obligation for school districts and community college districts required under the California Constitution, those funds are General Fund revenues appropriated for school districts and community college districts for the 2005–06 fiscal year.

(28) This bill would appropriate \$283,189,000 from the General Fund for transfer to the Controller to pay claims, including interest, for the reimbursement of costs mandated by the state submitted by school districts, county offices of education, and community college districts for the 1995–96 to 2004–05 fiscal years, inclusive, according to a specified order of priority. The bill would provide that for purposes of satisfying the minimum annual funding obligation for school districts and community college districts required under the California Constitution, those funds are General Fund revenues appropriated for school districts and community college districts for specified fiscal years.

(29) This bill would make other technical, clarifying, and conforming changes.

(30) *This bill would declare that it is to take effect immediately as an urgency statute.*

13 purposes of this section remaining after the apportionment  
14 pursuant to paragraph (1) has been made. The Superintendent  
15 shall apportion to each school district an amount equal to the per  
16 pupil rate determined pursuant to this paragraph multiplied by  
17 the number of eligible grade 11 pupils reported pursuant to  
18 paragraph (4) of subdivision (d). The per pupil amount for grade  
19 12 may not exceed five hundred dollars (\$500) in the 2006–07

21 shall be increased annually by the percentage determined in  
22 paragraph (2) of subdivision (b) of Section 42238.1

23 ~~(c) From the funds appropriated for purposes of this section,~~  
24 ~~the Superintendent shall apportion six hundred dollars (\$600) per~~  
25 ~~eligible pupil to school districts on behalf of schools identified~~

39 education instruction.

(3) Intensive instruction and services may include, but are not limited to, all of the following:

(2) Ensure that each pupil receives intensive instruction and services based on the results of the diagnostic assessment.

(3) Demonstrate that funds will be used to supplement and not supplant existing services.

(4) Provide to the Superintendent of Public Instruction, in a manner and by a date certain determined by the Superintendent, the number of eligible pupils at each high school in the school district.

(5) Submit an annual report to the Superintendent in a manner determined by the Superintendent that describes the number of pupils served, *the types of services for each type of service* provided, and *the percentage number* of pupils in the school district who successfully pass the ~~California High School Exit Examination~~ *high school exit examination by each type of service provided*.

*SEC. 4. Section 41203.1 of the Education Code is amended to read:*

41203.1. (a) For the 1990–91 fiscal year and each fiscal year thereafter, allocations calculated pursuant to Section 41203 shall be distributed in accordance with calculations provided in this section. Notwithstanding Section 41203, and for the purposes of this section, school districts, community college districts, and direct elementary and secondary level instructional services provided by the State of California shall be regarded as separate

1 segments of public education, and each of these three segments  
2 of public education shall be entitled to receive respective shares  
3 of the amount calculated pursuant to Section 41203 as though the  
4 calculation made pursuant to subdivision (b) of Section 8 of  
5 Article XVI of the California Constitution were to be applied  
6 separately to each segment and the base year for the purposes of  
7 this calculation under paragraph (1) of subdivision (b) of Section  
8 8 of Article XVI of the California Constitution were based on the  
9 1989–90 fiscal year. Calculations made pursuant to this  
10 subdivision shall be made so that each segment of public  
11 education is entitled to the greater of the amounts calculated for  
12 that segment pursuant to paragraph (1) or (2) of subdivision (b)  
13 of Section 8 of Article XVI of the California Constitution.

14 (b) If the single calculation made pursuant to Section 41203  
15 yields a guaranteed amount of funding that is less than the sum of  
16 the amounts calculated pursuant to subdivision (a), ~~then~~ the  
17 amount calculated pursuant to Section 41203 shall be prorated  
18 for the three segments of public education.

19 (c) Notwithstanding any other law, this section does not apply  
20 to the 1992–93 to ~~2005–06~~ 2006–07 fiscal years, inclusive.

21 *SEC. 5. Section 42238 of the Education Code is amended to*  
22 *read:*

23 42238. (a) For the 1984–85 fiscal year and each fiscal year  
24 thereafter, the county superintendent of schools shall determine a  
25 revenue limit for each school district in the county pursuant to  
26 this section.

27 (b) The base revenue limit for a fiscal year shall be determined  
28 by adding to the base revenue limit for the prior fiscal year the  
29 following amounts:

30 (1) The inflation adjustment specified in Section 42238.1.

31 (2) For the 1995–96 fiscal year, the equalization adjustment

5 (c) Except for districts subject to subdivision (d), the base  
6 revenue limit computed pursuant to subdivision (b) shall be  
7 multiplied by the district average daily attendance computed  
8 pursuant to Section 42238.5.

9 (d) (1) For districts for which the number of units of average  
10 daily attendance determined pursuant to Section 42238.5 is  
11 greater for the current fiscal year than for the 1982–83 fiscal  
12 year, compute the following amount, in lieu of the amount  
13 computed pursuant to subdivision (c):

14 (A) Multiply the base revenue limit computed pursuant to

16 pursuant to Section 42238.5 for the 1982–83 fiscal year.

17 (B) Multiply the lesser of the amount in subdivision (c) or 1.05  
18 times the statewide average base revenue limit per unit of

23 (C) Add the amounts in subparagraphs (A) and (B).

32 the amount of the decreased employer contributions to the Public  
33 Employees' Retirement System resulting from enactment of  
34 Chapter 330 of the Statutes of 1982, offset by any increase in  
35 those contributions, as of the 1983–84 fiscal year, resulting from  
36 subsequent changes in employer contribution rates.

37 (g) The reduction required by subdivision (f) shall be  
38 calculated as follows:

39 (1) Determine the amount of employer contributions that  
40 would have been made in the 1983–84 fiscal year if the

1 applicable Public Employees' Retirement System employer  
2 contribution rate in effect immediately prior to the enactment of  
3 Chapter 330 of the Statutes of 1982 was in effect during the  
4 1983–84 fiscal year.

5 (2) Subtract from the amount determined in paragraph (1) the  
6 greater of subparagraph (A) or (B):

7 (A) The amount of employer contributions that would have  
8 been made in the 1983–84 fiscal year if the applicable Public  
9 Employees' Retirement System employer contribution rate in  
10 effect immediately after the enactment of Chapter 330 of the  
11 Statutes of 1982 was in effect during the 1983–84 fiscal year.

12 (B) The actual amount of employer contributions made to the

16 the Public Employees' Retirement System for either of the  
17 following shall be excluded from the calculation specified above:

18 (A) Positions supported totally by federal funds that were  
19 subject to supplanting restrictions.

20 (B) Positions supported, to the extent of employer  
21 contributions not exceeding twenty-five thousand dollars  
22 (\$25,000) by any single educational agency, from a revenue  
23 source determined on the basis of equity to be properly  
24 excludable from the provisions of this subdivision by the  
25 Superintendent of ~~Public Instruction~~ with the approval of the  
26 Director of Finance.

27 (4) For accounting purposes, the reduction made by this  
28 subdivision may be reflected as an expenditure from appropriate  
29 sources of revenue as directed by the Superintendent of ~~Public~~  
30 ~~Instruction~~.

31 (h) The Superintendent of ~~Public Instruction~~ shall apportion to  
32 each school district the amount determined in this section less the  
33 sum of:

6 (6) The amount, if any, received pursuant to the Community  
7 Redevelopment Law (Part 1 (commencing with Section 33000)  
8 of Division 24 of the Health and Safety Code), except for any  
9 amount received pursuant to Section 33401 or 33676 of the  
10 Health and Safety Code that is used for land acquisition, facility  
11 construction, reconstruction, or remodeling, or deferred  
12 maintenance, except for any amount received pursuant to Section  
13 33492.15, paragraph (4) of subdivision (a) of Section 33607.5, or  
14 Section 33607.7 of the Health and Safety Code that is allocated  
15 exclusively for educational facilities.

16 (7) For a unified school district, other than a unified school  
17 district that has converted all of its schools to charter status  
18 pursuant to Section 47606, the amount of statewide average  
19 general-purpose funding per unit of average daily attendance  
20 received by school districts for each of four grade level ranges, as  
21 computed by the department pursuant to Section 47633,  
22 multiplied by the average daily attendance, in corresponding  
23 grade level ranges, of any pupils who attend charter schools  
24 funded pursuant to Chapter 6 (commencing with Section 47630)  
25 of Part 26.8 for which the district is the sponsoring local  
26 educational agency, as defined in Section 47632, and who reside  
27 in and would otherwise have been eligible to attend a noncharter  
28 school of the district.

29 (i) A transfer of seventh and eighth grade pupils between an  
30 elementary school district and a high school district shall not  
31 result in the receiving district receiving a revenue limit  
32 apportionment for those pupils that exceeds 105 percent of the  
33 statewide average revenue limit for the type and size of the  
34 receiving school district.

47634.1. (a) Notwithstanding subdivision (a) of Section 47634, a categorical block grant for charter schools for the 2005–06 fiscal year shall be calculated as follows:

(1) The Superintendent shall divide the total amount of funding appropriated for the purpose of this block grant in the annual Budget Act or another statute, less the total amount calculated in paragraph (2), by the statewide total of charter school average daily attendance, as determined at the second principal apportionment for the 2005–06 fiscal year.

(2) The statewide average amount, as computed by the Superintendent, of funding per identified educationally disadvantaged pupil received by school districts in the current fiscal year pursuant to Article 2 (commencing with Section 54020) of Chapter 1 of Part 29. This amount shall be multiplied by the number of educationally disadvantaged pupils enrolled in the charter school. The resulting amount, if greater than zero, may not be less than the minimum amount of Economic Impact Aid funding to which a school district of similar size would be entitled pursuant to Section ~~54031~~ 54022. For purposes of this subdivision, a pupil who is eligible for subsidized meals pursuant to Section 49552 and is identified as an English learner pursuant to subdivision (a) of Section 306 shall count as two pupils.

(3) For each charter school, the Superintendent shall multiply the amount calculated in paragraph (1) by the school’s average daily attendance as determined at the second principal apportionment for the 2005–06 fiscal year.

(4) The Superintendent shall add the amounts computed in paragraphs (2) and (3). The resulting amount shall be the charter school categorical block grant that the Superintendent shall apportion to each charter school from funds appropriated for this purpose in the annual Budget Act or another statute. The

1 Superintendent shall allocate an advance payment of this grant as  
2 early as possible, but no later than October 31, 2005, based on  
3 prior year average daily attendance as determined at the second  
4 principal apportionment or, for a charter school in its first year of  
5 operation that commences instruction on or before September 30,  
6 2005, on estimates of average daily attendance for the current  
7 fiscal year determined pursuant to Section 47652.

8 (b) (1) For the 2006–07 fiscal year, the categorical block grant  
9 allocated by the Superintendent for charter schools shall be four  
10 hundred dollars (\$400) per unit of charter school average daily  
11 attendance as determined at the second principal apportionment  
12 for the 2006–07 fiscal year. This amount shall be supplemented  
13 by the amount calculated in paragraph (2).

14 (2) The statewide average amount, as computed by the  
15 Superintendent, of funding per ~~identified educationally~~  
16 ~~disadvantaged pupil~~ *economic impact aid-eligible pupil count*  
17 received by school districts in the current fiscal year, pursuant to  
18 Article 2 (commencing with Section 54020) of Chapter 1 of Part  
19 29, shall be multiplied by the number of ~~educationally~~  
20 ~~disadvantaged~~ *economic impact aid-eligible* pupils enrolled in  
21 the charter school. The resulting amount, if greater than zero,  
22 may not be less than the minimum amount of Economic Impact  
23 Aid funding to which a school district of similar size would be  
24 entitled pursuant to Section ~~54031~~ 54022. ~~For purposes of this~~  
25 ~~subdivision, a pupil who is eligible for subsidized meals pursuant~~  
26 ~~to Section 49552 and is identified as an English learner pursuant~~  
27 ~~to subdivision (a) of Section 306 shall count as two pupils.~~

28 (c) (1) For the 2007–08 fiscal year, the categorical block grant  
29 allocated by the Superintendent for charter schools shall be five  
30 hundred dollars (\$500) per unit of charter school average daily  
31 attendance as determined at the second principal apportionment  
32 for the 2007–08 fiscal year. For each fiscal year thereafter, this  
33 per unit amount shall be adjusted for the cost-of-living  
34 adjustment, as determined pursuant to Section 42238.1, for that  
35 fiscal year. This amount shall be supplemented in the 2007–08  
36 fiscal year and each fiscal year thereafter by the amount  
37 calculated in paragraph (2).

38 (2) The statewide average amount, as computed by the  
39 Superintendent, of funding per ~~identified educationally~~  
40 ~~disadvantaged pupil~~ *economic impact aid-eligible pupil count*

1 received by school districts in the current year, pursuant to  
2 Article 2 (commencing with Section 54020) of Chapter 1 of Part  
3 29, shall be multiplied by the number of ~~educationally~~  
4 ~~disadvantaged~~ *economic impact aid-eligible* pupils enrolled in  
5 the charter school. The resulting amount, if greater than zero,

9 ~~subdivision, a pupil who is eligible for subsidized meals pursuant~~  
10 ~~to Section 49552 and is identified as an English learner pursuant~~  
11 ~~to subdivision (a) of Section 306 shall count as two pupils.~~

12 (d) It is the intent of the Legislature to fully fund the  
13 categorical block grant for charter schools as specified in this  
14 section and to appropriate additional funding that may be needed  
15 in order to compensate for unanticipated increases in average  
16 daily attendance and counts of ~~educationally disadvantaged~~  
17 *economic impact aid-eligible* pupils, pursuant to Article 2  
18 (commencing with Section 54020) of Chapter 1 of Part 29, in  
19 charter schools. In any fiscal year in which the department  
20 identifies a deficiency in the categorical block grant, the  
21 department shall identify the available balance for programs that  
22 count towards meeting the requirements of Section 8 of Article  
23 XVI of the California Constitution and have unobligated funds  
24 for the year. On or before July 1, the department shall provide the  
25 Department of Finance with a list of those programs and their  
26 available balances, and the amount of the deficiency, if any, in  
27 the categorical block grant. Within 45 days of the receipt of a  
28 notification of deficiency, the Director of Finance shall verify the  
29 amount of the deficiency in the categorical block grant and direct  
30 the Controller to transfer an amount, equal to the lesser of the  
31 amount available or the amount needed to fully fund the  
32 categorical block grant, from those programs to the categorical  
33 block grant. The Department of Finance shall notify the Joint  
34 Legislative Budget Committee within 30 days of any transfer  
35 made pursuant to this section.

36 (e) Commencing October 1, 2007, the Legislative Analyst's  
37 Office shall triennially convene a work group to review,  
38 commencing with appropriations proposed for the 2008–09 fiscal  
39 year, the appropriateness of the funding level provided by the  
40 categorical block grant established in this section.

(f) Categorical block grant funding may be used for any purpose determined by the governing body of the charter school.

SEC. 14. Article 2 (commencing with Section 54020) of Chapter 1 of Part 29 of the Education Code is repealed.

SEC. 15. Article 2 (commencing with Section 54020) is added to Chapter 1 of Part 29 of the Education Code, to read:

Article 2. *Economic Impact Aid*

54020. It is the intent of the Legislature that funds authorized pursuant to this chapter replace, as of July 1, 1979, funds previously authorized to support educationally disadvantaged youth programs and bilingual education. To that end, the purpose of this article is to provide a method of impact aid allocation to be utilized by the Superintendent, that will allow efforts initiated under those programs to continue and expand so long as a need exists while previously unserved and underserved populations are provided with adequate aid.

54021. For the 2006–07 fiscal year, the Superintendent shall make the following calculations for each school district:

(a) Using the methodology specified in Section 54023, determine the economic impact aid-eligible pupil count for each school district for the 2005–06 fiscal year as if Section 54023 had been in effect for that fiscal year.

(b) Divide the school district economic impact aid calculated funding in the 2005–06 fiscal year, excluding the minimum grant specified in Section 54031, as it read during that fiscal year, by the number calculated pursuant to subdivision (a).

(c) For the purpose of calculating the economic impact aid allocations for the 2006–07 fiscal year, the quotient calculated in subdivision (b) shall be deemed to be the prior year economic impact aid per pupil amount for the 2006–07 fiscal year.

(d) For the purpose of establishing a base year economic impact aid per pupil amount pursuant to this section, if a school district received an allocation for the economic impact aid

1 *program in the 2005–06 fiscal year, but has no economic impact*  
2 *aid eligible pupils as determined in Section 54023 for that year;*  
3 *the school district shall be deemed to have a prior-year economic*  
4 *impact aid per pupil amount for the 2006–07 fiscal year that is*  
5 *equal to the statewide average economic impact aid per pupil*  
6 *amount for the 2005–06 fiscal year calculated for the state as a*  
7 *whole as specified in subdivisions (a) and (b).*

8 *54022. For the 2006–07 fiscal year and each fiscal year*  
9 *thereafter, each school district shall receive the amount of*  
10 *economic impact aid determined by the Superintendent pursuant*  
11 *to subdivision (b) or (c), whichever is greater, calculated for*  
12 *each school district according to all of the following:*

13 *(a) Increase the prior fiscal year economic impact aid per*  
14 *pupil amount by the percentage change specified in paragraph*  
15 *(2) of subdivision (b) of Section 42238.1 for the current fiscal*  
16 *year.*

17 *(b) Multiply the economic impact aid per pupil amount for the*  
18 *current fiscal year calculated in subdivision (a) by the economic*  
19 *impact aid-eligible pupil count for the current fiscal year as*  
20 *calculated in Section 54023.*

21 *(c) A school district shall, at a minimum, receive funds based*  
22 *on the number of economic impact aid-eligible pupils according*  
23 *to the following schedule:*

24 *(1) For the 2006–07 fiscal year, according to the following*  
25 *table:*

<i>Number of economic impact aid-eligible pupils</i>	<i>Amount</i>
27 <i>0.....</i>	28 <i>None</i>
29 <i>1–20.....</i>	30 <i>\$5,500</i>
31 <i>21 or more.....</i>	32 <i>\$8,300</i>

33 *(2) For the 2007–08 fiscal year and each fiscal year thereafter,*  
34 *the minimum amounts for the schedule in paragraph (1) for the*  
35 *prior fiscal year shall be increased by the percentage change*  
36 *specified in paragraph (2) of subdivision (b) of Section 42238.1.*

37 *54023. For the 2006–07 fiscal year and each fiscal year*  
38 *thereafter, the economic impact aid-eligible pupil count shall be*  
39 *calculated for each school district as follows:*

40 *(a) Determine the count of economically disadvantaged pupils*  
*for the current fiscal year, as defined in Section 54026.*

1     (b) Determine the count of English learners for the current  
2     fiscal year, as defined in subdivision (b) of Section 54026.

3     (c) Calculate an economic impact aid weighted pupil  
4     concentration factor:

5         (1) Add the pupil counts determined in subdivisions (a) and  
6         (b).

7         (2) Divide the fall CBEDS enrollment for the school district  
8         for the prior school year by two.

9         (3) Subtract from the sum calculated in paragraph (1) the  
10         quotient calculated in paragraph (2).

11         (4) If the result of the calculation in paragraph (3) is greater  
12         than zero, multiply that difference by 0.5. If the result is less than  
13         zero, it shall be deemed to be zero.

14     (d) The economic impact aid-eligible pupil count for each  
15     school district shall equal the sum of the pupil counts determined  
16     in subdivisions (a) and (b), and the weighted pupil concentration  
17     factor determined in subdivision (c).

18     54024. The state board may, pursuant to Article 3  
19     (commencing with Section 33050) of Chapter 1 of Part 20, waive  
20     any statutory provision or regulation regarding the use of funds  
21     apportioned pursuant to this article, provided that the funds are  
22     used in the same schools, or in schools with similar need levels,  
23     and the district demonstrates a reasonable case that the waiver  
24     will improve pupil services in those schools.

25     54025. (a) A school district shall expend economic impact  
26     aid funds to serve and assist English learners and economically  
27     disadvantaged pupils and may not expend those funds at  
28     schoolsites that do not have English learners or economically  
29     disadvantaged pupils.

30     (b) A school shall use funds received pursuant to this article to  
31     support programs and activities designed to assist English  
32     learners achieve proficiency in the English language as rapidly  
33     as practicable and to support programs and activities designed  
34     to improve the academic achievement of English learners and  
35     economically disadvantaged pupils.

36     (c) Funds received by school districts pursuant to this article  
37     shall supplement, and not supplant, existing resources at the  
38     schoolsites.

39     54026. For purposes of this article, the following definitions  
40     apply:

1 (a) “Economically disadvantaged pupils” means either of the  
2 following, whichever is applicable:

3 (1) Pupils described in Section 101 of Title I of the federal No  
4 Child Left Behind Act of 2001 (20 U.S.C. Sec. 6333(c)(1)(A)(B)).

5 (2) Notwithstanding paragraph (1), for a small school district,  
6 the product of the number of pupils eligible for participation in  
7 the free meals program for the prior fiscal year, as defined in  
8 subdivision (d), and the free meals adjustment factor. The free  
9 meals adjustment factor is the quotient, rounded to two decimal  
10 places, resulting from dividing the statewide total of  
11 economically disadvantaged pupils as defined in paragraph (1)  
12 by the statewide total of pupils eligible for participation in the  
13 free meals program for the prior fiscal year, as defined in  
14 subdivision (d). For purposes of this subdivision, the department  
15 may substitute the current year counts of a charter school that is  
16 established on or after July 1, 2006, but not through the  
17 conversion of an existing public school, for prior year counts of  
18 pupils eligible for participation in free meals.

19 (b) “English learner” means a pupil described in subdivision  
20 (a) of Section 306 or identified as a pupil of limited English  
21 proficiency, as that term is defined in subdivision (m) of Section  
22 52163.

23 (c) “Small school district” means a school district that has an  
24 annual enrollment of less than 600 pupils based on prior school  
25 year CBEDS data and is, for the purposes of this section,  
26 designated a rural school by the Superintendent based on the  
27 appropriate school locale codes, as used by the National Center  
28 for Education Statistics of the United State Department of  
29 Education.

30 (d) “Free meals” means the aggregate number of pupils  
31 meeting the income eligibility guidelines established by the  
32 federal government for free meals as reported for all schools for  
33 which the district is the authorizing agency.

34 54027. If a school district reorganizes either by unification or  
35 by consolidation with another school district of similar type, the  
36 Superintendent shall calculate an economic impact aid per pupil  
37 amount based on the respective per pupil amounts for each  
38 school district participating in the reorganization, weighted by  
39 the number of economic impact aid-eligible pupils contributed by  
40 each school district. The Superintendent shall use the

1 appropriate data from the year prior to the year that the  
2 reorganization is effective for all purposes.

3 54028. Notwithstanding any other provision of law, the  
4 provisions of this article are subject to Sections 62002.5 and  
5 62004, and to the portions of Section 62003 that relate to  
6 auditing the use of funds allocated for purposes of economic  
7 impact aid.

8 SEC. 16. Article 4 (commencing with Section 54040) of  
9 Chapter 1 of Part 29 of the Education Code is repealed.

10 SEC. 17. Section 56836.155 of the Education Code is  
11 amended to read:

12 56836.155. (a) On or before November 2, 1998, the  
13 department, in conjunction with the Office of the Legislative  
14 Analyst, shall do the following:

15 (1) Calculate an “incidence multiplier” for each special  
16 education local plan area using the definition, methodology, and  
17 data provided in the final report submitted by the American  
18 Institutes for Research pursuant to Section 67 of Chapter 854 of  
19 the Statutes of 1997.

20 (2) Submit the incidence multiplier for each special education  
21 local plan area and supporting data to the Department of Finance.

22 (b) The Department of Finance shall review the incidence  
23 multiplier for each special education local plan area and the  
24 supporting data, and report any errors to the department and the  
25 Office of the Legislative Analyst for correction.

26 (c) The Department of Finance shall approve the final  
27 incidence multiplier for each special education local plan area by  
28 November 23, 1998.

29 (d) For the 1998–99 fiscal year and each fiscal year thereafter  
30 to and including the ~~2005–06~~ 2006–07 fiscal year, the  
31 Superintendent shall perform the following calculation to  
32 determine each special education local plan area’s adjusted  
33 entitlement for the incidence of disabilities:

34 (1) The incidence multiplier for the special education local  
35 plan area shall be multiplied by the statewide target amount per  
36 unit of average daily attendance for special education local plan  
37 areas determined pursuant to Section 56836.11 for the fiscal year  
38 in which the computation is made.

39 (2) The amount determined pursuant to paragraph (1) shall be  
40 added to the statewide target amount per unit of average daily

1 attendance for special education local plan area determined  
2 pursuant to Section 56836.11 for the fiscal year in which the  
3 computation is made.

4 (3) Subtract the amount of funding for the special education  
5 local plan area determined pursuant to paragraph (1) of  
6 subdivision (a) or paragraph (1) of subdivision (b) of Section  
7 56836.08, as appropriate for the fiscal year in which the  
8 computation is made, or the statewide target amount per unit of  
9 average daily attendance for special education local plan areas  
10 determined pursuant to Section 56836.11 for the fiscal year in  
11 which the computation is made, whichever is greater, from the  
12 amount determined pursuant to paragraph (2). For the purposes  
13 of this paragraph for the 2002–03, 2003–04, 2004–05, ~~and~~  
14 2005–06, *and 2006–07* fiscal years, the amount, if any, received  
15 pursuant to Section 56836.159 shall be excluded from the  
16 funding level per unit of average daily attendance for a special  
17 education local plan area. If the result is less than zero, the  
18 special education local plan area may not receive an adjusted  
19 entitlement for the incidence of disabilities.

20 (4) Multiply the amount determined in paragraph (3) by either  
21 the average daily attendance reported for the special education  
22 local plan area for the fiscal year in which the computation is  
23 made, as adjusted pursuant to subdivision (a) of Section  
24 56836.15, or the average daily attendance reported for the special  
25 education local plan area for the prior fiscal year, as adjusted  
26 pursuant to subdivision (a) of Section 56826.15, whichever is  
27 less.

28 (5) If there are insufficient funds appropriated in the fiscal  
29 year for which the computation is made for the purposes of this  
30 section, the amount received by each special education local plan  
31 area shall be prorated.

32 (e) For the 1997–98 fiscal year, the Superintendent shall  
33 perform the calculation in paragraphs (1) to (3), inclusive, of  
34 paragraph (d) only for the purposes of making the computation in  
35 paragraph (1) of subdivision (d) of Section 56836.08, but the  
36 special education local plan area may not receive an adjusted  
37 entitlement for the incidence of disabilities pursuant to this  
38 section for the 1997–98 fiscal year.

20 pursuant to Section 42238.1, to obtain the alternative threshold  
21 amount for claims in the 1998–99 fiscal year. In subsequent  
22 fiscal years, the alternative threshold amount shall be the  
23 alternative threshold amount for the prior fiscal year multiplied

35 *read:*

36 69616. (a) The Legislature hereby recognizes the growing  
37 need for new faculty members in the nursing field at California's  
38 colleges and universities. This need will be fueled largely by the  
39 large number of current faculty approaching retirement age who  
40 will need to be replaced and the expected growth in enrollment

1 demand in California. Further, to increase the supply of nurses in  
2 California, there must be an expansion of nursing educator  
3 opportunities in public colleges and universities that will produce  
4 the necessary faculty to teach in nursing programs in the state.

5 (b) The Legislature finds that the rising costs of higher  
6 education, coupled with a shift in available financial aid from  
7 scholarships and grants to loans, make loan repayment options an  
8 important consideration in a student's decision to pursue a  
9 graduate degree in nursing education *or in a field related to*  
10 *nursing*.

11 (c) It is the intent of the Legislature that the State Nursing  
12 Assumption Program of Loans for Education (SNAPLE) be
